CORPS STRATEGIC OBJECTIVES

- **People. Be recognized for the technical and professional excellence of our world-class workforce, functioning as teams delivering projects and services.**
- **Process. Use the Project Management Business Process to operate as One Corps, regionally delivering quality goods and services.**
- **Communication. Communicate effectively to build synergistic relationships that serve the nation.**

US Army Corps
of Engineers

In today's planning environment, planners and project managers need two skill sets:

TECHNICAL SKILLS

PROCESS SKILLS

US Army Corps
of Engineers

THREE-STEP TRAINING CYCLE

- Brief lectures or class exercise
- A class or team exercise
- Class discussion

- Different modes of learning work differently for different people
- The more learning modes, the more likely you are to remember
- Exercises bring material closer to life
- Skills require practice during the course (and after)
- During exercises you will learn from each other
- Working in teams is part of the learning

Because the course is interactive, it is important that you:

- Be here, and be on time – or your team will be short members
- Participate enthusiastically – it's part of the learning
